# Patient Search

## To search for a patient:

1. On the Patient Activity Report tab, enter search criteria.
2. Click the Search button.  
Search criteria will display as read only. You must enter a Last Name, First Name (or initial) and Date of Birth at a minimum.

# Searching for and Viewing Patient Results

Once the user searches for patient records, the results are displayed in a table below the search criteria. A selection check-box displays on every row. **To view and select patient search results:**

1. Select the check boxes for each patient choice you want included in the report, or check off the “Select” box in the header row to select all.
2. Choosing “Revise Search” will allow you to change specific search details (e.g. date of birth, changing First Name to First initial only (broadens search, helps find aliases))
3. Select the “Generate Report” button or click on the “Details” tab at the top to open the Patient Activity Report (PAR).

The screenshot shows a web interface for searching patient records. At the top, there are three tabs: "Search", "Details", and "Compacts and Messaging". The "Search" tab is active. Below the tabs is a "Search Criteria" section with a "Saved Search:" label. The search criteria are: First Name: AAbbb, Last Name: XXyyzz, Gender: M, Date of Birth: 1/1/1900, Search Mode: Partial Match, Search Period: 6 months. There is a "Revise Search" button below the criteria. Below the criteria is a table titled "Matches Returned: 3". The table has columns: Select, Last Name, First Name, MI, DOB, Gender, Address, Compact, and # of Rx. The first row has a checked "Select" box and empty input fields for the other columns. The second row has a checked "Select" box and a value of "M" for Gender. The third row has a checked "Select" box and a value of "M" for Gender. Below the table is a "Generate Report" button. Red arrows point to the "Search" tab, the "Select" checkbox in the table header, and the "Generate Report" button.

Select	Last Name	First Name	MI	DOB	Gender	Address	Compact	# of Rx
<input checked="" type="checkbox"/>					M		Y	3
<input checked="" type="checkbox"/>					M		Y	1
<input checked="" type="checkbox"/>					M		Y	2

# Saving Searches

- For patients on chronic therapies, save the search. This allows you to run the PAR (Patient Activity Report) again without re-entering the name & DOB - See CURES Module II for details.
